## THP India's Response to COVID-19 Crisis

**DONATE**

**Stay In, Reach Out! Support Our Covid-19 Relief Efforts**

These are extraordinary times. We together face an unprecedented challenge that calls on all of us to step forward in our shared humanity.

THP India's response to the COVID-19 crisis has been two-fold. First steps included raising awareness around COVID-19, highlighting safety measures that need to curb the spread of the disease and bust myths related to it. So far **500,000 people** have received accurate and timely information. In the second phase, simultaneous focus has been put on the humanitarian response, since a large number of families have lost their basic source of income during the lockdown in India, and are on the brink of severe hunger and starvation. THP India has thus far reached out to approximately **5000 households** with dry food rations in its working areas of Bihar, Madhya Pradesh, and Rajasthan. Around **25,000** vulnerable people have received support during this time.

THP India has also stepped up engagement with the communities through its partner network and elected women representatives in gram panchayats (local village councils) in the six states of Bihar, Karnataka, Madhya Pradesh, Odisha, Rajasthan, and Uttarakhand.

Your donation will help us continue our efforts as the situation continues to remain dire, and enable us to adapt our strategies to better address the ongoing health, humanitarian, economic and social crisis in rural areas.

### **For Indian Donations**

Account Name: The Hunger Project-Indian Account  
Bank Name: ICICI Bank  
Branch: C-17, C Block Market, Vasant Vihar Branch,  
Vasant Vihar, New Delhi-110057  
Type of Account: Saving  
Account Number: 006501109193  
IFSC Code: ICIC0000065
